ABSTRACT

| 1 | A multiple bandwidth antenna assembly including a helical radiator |
|---|--|
| 2 | having at least a first helical pitch and a second helical pitch, a core plug having a |
| 3 | first axial piece and a second axial piece that abut one another, and a first recessed |
| 4 | pattern configured on the first axial piece to engage at least the first helical pitch |
| 5 | and a second recessed pattern configured on the second axial piece to engage at |
| 6 | least the second helical nitch |
